New York, February 5.—11 a.m.—Stocks opened buoyant: ¾@1½ higher, while the general list advanced ¼@1 additional. Union Pacific, however, proved an exception, being heavy throughout.

New York, February 5.—Governments dull and firm.

The stock market was generally very strong at the opening, the first prices showing gains ranging from ¼ to over 1 per cent., the latter Union Pacific. During the first hour, there was continued strength and a decided activity in the dealings, during which advances of fractions to over 1 per cent. were made. Prices moved irregularly within a comparatively narrow range until late in the day, when there was a decline of ¼ to 1 per cent. This was checked just before the close and slight advances were made in many cases, the market finally closing only moderately active, but firm.

A Wise Reform.

The habit of administering quinine in powerful doses, as an antidote to malarial maladies, was once dangerously common. Happily this practice has undergone a wide reform. Not only the public, but professional men have adopted, not wholly, of course, but largely, Hostetter's Stomach Bitters as a safe tonic substitute for the pernicious alkaloid. The consequences of this change are most important. Now fever and ague sufferers are cured—formerly their complaints were only for the time relieved, or half cured—the remedy eventually failing to produce any appreciable effect, except the doses were increased. A course of the Bitters, persistently followed, breaks up the worst attack and prevents their return. The evidence in favor of this sterling specific and household medicine is of no ambiguous character, but positive and satisfactory, and the sources when it proceeds are very numerous.
